HGST’s commitment to well-grounded practicum experiences flows out of its mission statement: *The mission of Houston Graduate School of Theology is empowering spiritual leadership through the intellectual, spiritual, and vocational development of men and women in order to advance the gospel of Jesus Christ throughout the world.*

In order to fulfill this mission regarding the empowerment of spiritual leadership, Houston Graduate School of Theology (HGST) has adopted a three-fold emphasis—missional theology, Christian spirituality, and systems thinking—so that men and women are prepared holistically to participate in the advancement of the gospel of Jesus Christ. This biblical and theological vision embraces God’s call to participate in the *missio Dei*—the ongoing redemptive mission of God in our lives, communities, and world. The opportunity to influence others requires training and support as faithful leaders. In addition, followers of the Christ are able to remain faithful insofar as they are routinely formed in the image of the Christ through individual and corporate spiritual formation. Discerning God’s movement and one’s vocation requires wise assessment of contextual social systems ranging from families to global people groups.

This Handbook is a guide to be used in Houston Graduate School of Theology ministry practicum courses. The Handbook is intended for student and faculty use and for use by professionals in churches, schools, hospitals, and related programs who are participating in the training of ministry students.

**Purpose**

A practicum is a graduate-level course in a specialized field of study that is designed to give students supervised practical application of a previously or concurrently studied theory. A practicum provides a supervised field experience, which affords the graduate student an opportunity to continue skill development and to put into practice what has been learned in the academic setting. It allows students an opportunity to evaluate themselves in terms of individual interests and professional direction within the field. Most importantly, the practicum experience gives students an opportunity to continue to develop their own professional identities. Typically, students in the ministry practicum are well into their graduate degree programs. The practicum emphasizes the development of those competencies that can lead to positive growth.

**Outcomes**

Practicum experiences provide students with the opportunity to integrate what they learn in the classroom with practical experience. Most students who come to HGST begin with some prior experience at the lay or professional level. However, most have not achieved a level of competency that comes with graduate theological education and integration of new knowledge into a professional context. The Practicum experience gives students further opportunity for supervised ministry training in field settings so that they attain higher proficiency as reflective practitioners.
The person who completes the Master of Divinity degree program will be able to meet the following outcomes:

1. Using appropriate hermeneutical methods of exegesis, exposition, and application, analyze the contents and assess the significance of the Bible in both general terms and in representative detail throughout
2. Using Scripture and the historical theology of the church, identify and explain the major doctrines of Christian faith from its beginnings to the present
3. Identifying key persons, events, and issues, review the history of the Christian faith from its beginnings to the present
4. Recognizing relevant social and cultural contexts, apply Christian faith to various facets of personal life and community
5. Relating to persons and groups with concern, empathy, and insight, offer spiritual guidance, understanding, prayer, blessing, and support
6. Engaging with the history and traditions of Christian faith and witness, practice spirituality in one’s life and context
7. Employing effective ministry skills, provide leadership in the worship, education, and service of the church
8. Demonstrating a capacity for spiritual leadership, communicate the gospel of Jesus Christ to the world

The practicum experience is designed to measure fulfillment, primarily, of outcome 7 and, secondarily, outcomes 4, 5, and 8 for the degree program.

The Ministry Practicum

Field Education is the progressive involvement of seminarians in pastoral and social practices of ministry with attentive and wise supervision.

Ministry Practicum option
Each ministry practicum (FE 651 and FE 652) is completed part-time during a semester or summer and requires 150 hours of coursework and fieldwork in a congregation, local mission, or community agency (normally 10 hours per week for 15 weeks). In addition to fieldwork at the practicum site, the student attends the weekly class meeting at HGST and completes assignments. Each ministry practicum is a specialized ministry experience that focuses on select areas of ministry as agreed upon by the student and mentor.

Prerequisite Courses:
- Prior to enrollment in FE 651, students are required to have completed PC 501 Introduction to Pastoral Care plus two more “501” courses. In addition, they will have completed a minimum of thirty credit hours in the Master of Divinity degree program.
- Prior to enrollment in FE 652, students are required to have completed all six “501” introductory courses and a minimum of sixty credit hours in the Master of Divinity degree program.
Pastoral Internship option
A student may complete the field education requirement \textit{fulltime} for a minimum of 13 weeks by taking FE 700: Pastoral Internship. This option is suggested for students who desire a broad experience in pastoral ministry. If the internship is local, the student attends the weekly practicum class. If the internship is outside of the Houston area, the student completes reading assignments and organizes a portfolio.

Student Requirements

Students must submit the application form to the Ministry Practicum Director on or prior to the deadlines listed below, be officially approved by Practicum Director, and register for practicum courses.

First Semester Practicum Deadlines:
For Fall Semester Practicum
1. Initial Application July 15
2. Supplemental Documentation due August 15
For Spring Semester Practicum
1. Initial Application due December 15
2. Supplemental Documentation due January 15
For Summer Term Practicum
1. Initial Application due April 15
2. Supplemental Documentation due May 1

Subsequent Practicum courses are predicated upon obtaining credit in the previous Practicum course.

1. Practicum Application Packet: Upon completion of all prerequisite courses, and according to the schedule noted above, each student must submit the respective application packet. HGST must have a supervisor agreement completed for each practicum course.

2. Background Check: Register and pay for the mandatory background check online at www.certifiedbackground.com. Use the HGST code: OS 54. Print the Confirmation Page, which will be available at the end of the online registration session, and submit a copy along with the Practicum Application Packet.

3. Supervisor Agreement Form: Provide the completed supervisor agreement form. The Supervisor will complete the form and the student will return it to HGST. HGST must have a supervisor agreement completed for each practicum semester.

5. Confidentiality Agreement: Sign and submit a Confidentiality Agreement in order to verify awareness of and adherence to guarding the confidential information in ministry settings. Even though there are strong legal and ethical principles involved in the
protection of information, there are limitations to confidentiality. First, ministers are ethically obligated to break confidentiality if the parishioner* presents a clear and present danger of harming either himself or herself or harming others, or reports child abuse or elder abuse. Supervisors are responsible for making sure practicum students and parishioners are aware of limits to confidentiality. Practicum students should be instructed to notify their supervisors immediately if a parishioner reveals the intent to harm self or others, or if there are reasons to suspect child or elder abuse. Supervisors are responsible for assisting practicum students in making necessary legal reports and/or reports to Child Protective Services (CPS) or Adult Protective Services (APS). Students MAY NOT make reports without first consulting with their supervisor(s). Next, students must be educated about the nature of subpoenas. Although these situations are very unlikely, practicum students need to be aware of the limitations of confidentiality when a subpoena is issued. Finally, practicum students will be expected to discuss their ministry practicum activities with their supervisors and with fellow students in the practicum. Students need to be informed that, when they hear about other students’ activities, the students are responsible for maintaining confidentiality.

* In the context of the ministry practicum, “parishioner” means any person with whom the student encounters in direct ministry settings.

Supervision

Supervision is a tutorial and mentoring form of instruction in which a professional minister monitors a student’s activities in practicum experiences and facilitates the learning and skill development experiences associated with practicum. The supervisor monitors and evaluates the work of the student while monitoring the quality of services offered.

Supervisor Qualifications

The practicum experience is considered to be one of the most critical elements in a student’s course of study. All supervisors must be clearly committed to preparing professional ministers and to promoting the development of the student’s professional identity.

The supervisor is one who demonstrates competency, wisdom, and dedication in a particular ministry or vocation and who can serve as a model for another person who is pursuing a similar ministry or vocation. The supervisor is one who has enough insight and experience to know what happens in the process of growing in one's self-awareness; who is sensitive to the discomfort that can accompany the learning process; and who is skilled in the art of theological reflection.

Requirements

- Supervisors must be in good standing in their denominations and not under review with their denomination. Supervisors will submit a letter of good standing from their judicatory;
- Supervisors must have a minimum of three years of authorized work in their particular field and have served in one or more ministry roles for no fewer than five years;
• Supervisors must have been in their current position in the supervisory site for a minimum of one year;
• Those holding an interim position in a congregation, agency, or institution are not eligible to be supervisors;
• Supervisors must hold an MDiv or equivalent degree or have experience applicable to the practicum or internship;
• Supervisors share a conviction that the development of students is an important role and are willing and able to spend the time necessary with his or her practicum student;
• Supervisors must have completed the process of certification offered by Houston Graduate School of Theology before supervising students. The certification and training session are offered at two different points of the year. Check the HGST website for details.

All supervisors and practicum sites are subject to regular review by the Ministry Practicum Director.

Responsibilities of the Supervisor
Supervisors will:
• Understand the supervisory role as one of service;
• Maintain appropriate professional boundaries and ethical practices with the seminarian. This includes respecting the personal space and wishes of a student regarding any physical contact;
• Honor the ministerial formation process of a student with respect;
• Relate to the student as a member of the team without relinquishing supervisory roles;
• Guide the student toward experiences that will encourage personal and professional development;
• Agree from the beginning to schedule meetings with the student and to discuss how to best communicate with each other between supervisory sections (e.g., email, texts, calls);
• Supervisors are required not just to approve the learning goals of the student, but to help the student shape realistic and achievable goals;
• Look for competencies to affirm in a student;
• Observe and evaluate personal and professional characteristics necessary for their given vocations;
• Reflect theologically with a student;
• Provide time for supervisory sessions on a regular basis, no less than every two weeks;
• Be reasonably available to the student for guidance;
• Provide feedback consistently and wisely;
• Share openly with students about the challenges and considerations ministry entails.

The Supervisory Session
The supervisory session offers the field education supervisor the opportunity to discuss with the student how integration is being effected in his or her life and ministry. The session offers the student an opportunity to ask “why” as well as “how” about ministry. The session also serves as a means of clarifying issues. The sessions should be a regularly scheduled meeting that both the student and supervisor regard as sacred time. The typical supervisory session with the seminarian should last one hour and should occur once every two weeks.
The supervisory session involves one-on-one supervision, and should address several issues:

Professional Skills: How can I do it?
Personal Identity: Who am I?
Vocational Identity: What is at stake for me in my work here?
Theological Reflection: Where is God in this?

Early in the supervisory experience, sessions should focus on assessing the student’s learning needs and developing a learning covenant. Most of the sessions throughout the placement will be devoted to reflection on ministry experience. Toward the end of the supervisory experience, evaluation of the student’s growth and development as a person and minister will be the primary focus of supervisory sessions.

**Evaluation**

- Supervisors are responsible for completing a Basic Skills Assessment Form for each practicum student at the MIDTERM and FINAL.
- Supervisors will mail the completed Basic Skills Assessment Form for submission to the Ministry Practicum Director.
- Supervisors will keep a signed copy and provide a signed copy to each student.

**Evaluation Administration**

*Site Supervisors* are required to complete and submit a Basic Skills Assessment Form for each of their practicum students. This assessment form has both quantitative and qualitative components that assess ministry skills demonstrated by the student. The assessment form is used as part of a comprehensive assessment of the students’ professional skills as the student progresses through the program.

**Completing Evaluations:**

1. Site Supervisors will review the assessment form face-to-face with each student during individual supervision. Once reviewed, supervisor and student will both endorse the assessment form. Some supervisors have students complete a self-evaluation using the same instrument and “compare notes” during the review session. (Note: Evaluations should be shared in a positive manner to facilitate discussion and insight into strengths and areas of growth.)
2. Site Supervisors should make a copy of each assessment form (Midterm and Final) for the student and mail the completed and signed forms to the Ministry Practicum Director for inclusion in the student’s practicum file prior to the end of the semester. Originals should be mailed to the Practicum Director, Dr. Ken Shuman.
Grading
Practicum is graded on a Pass/Fail basis. A passing grade will be granted for satisfactory completion of all practicum requirements, including demonstration of professional conduct and mastery of counseling skills. If a student receives a failing grade, then the student will be allowed to repeat the practicum one time only for a passing grade. If the student receives a failing grade a second time in the course, the student may be dismissed from the respective program.

Confidentiality Agreement Form

Instructions to Practicum Student: Read the statement below and sign the next page. Submit the signed original form to your on-site supervisor and submit a copy to your Ministry Practicum Director.

The professional responsibility of ministers is to respect the right to privacy of those encountered in ministry settings. Ministers must keep abreast of and adhere to all laws, policies, and ethical standards pertaining to confidentiality. This confidentiality must not be abridged by the minister except when there is clear and present danger to the student and/or other persons.

- Confidentiality does not apply to cases of suspected abuse/neglect of children or the elderly.
- Confidentiality does not apply to cases of potential harm to self or others.
- A minister may disclose confidential information in proceedings brought by a parishioner against a professional.
- Confidentiality does not apply to cases involving criminal proceedings, except communications by a person voluntarily involved in a substance abuse program.
- Confidentiality may not apply in cases involving legal proceedings affecting the parent-child relationship.
- Confidentiality may not apply to cases involving a minor child. In such cases, the minister may advise a parent, managing conservator, or guardian of a minor, with or without minor’s consent, of the treatment needed by or given to the minor.

**The Rationale**
Confidentiality is an ethical term denoting a ministerial practice relevant to privacy. Privileged communication is a legal term denoting a requirement to protect the privacy between minister and parishioner. A parishioner has the right to privacy and confidentiality. A ministerial relationship requires an atmosphere of trust and confidence between the minister and the parishioner. Confidentiality ensures that disclosures will not be divulged to others except when authorized by the parishioner or when there is a clear and present danger to the parishioner and/or to other persons. It is the professional responsibility of minister to respect the right to privacy of those with whom they enter ministerial relationships.

*I have read HGST’s Position Statement on Confidentiality and agree to abide by these guidelines to maintain confidentiality during the performance of my practicum responsibilities.*

It is imperative that students have the capacity for authentic, caring, and responsible relationships with others and have acquired baseline knowledge pertaining to helping skills and assessment. This form is designed to document such competencies. It should be completed in the middle and at the end of the practicum semester. Satisfactory ratings indicate that the student is capable of providing direct services [“Direct services” is defined as providing services without a supervisor immediately present]. The form should be completed by the students’ site supervisors and discussed with the student. At the completion of this discussion, students are asked to make a copy of this form (for their records) and return the completed form to the Practicum Director.

This form consists of two broad areas. The first area is Attitudes, Values, Intellectual Abilities, and Personal Skills, which consist of general skills and competencies that graduate students are expected to be able to demonstrate at a satisfactory level. The second area is Background Knowledge.

Students are rated on a 0-4 scale regarding each domain, and the meaning of each numerical rating is provided below.

0 - Unsatisfactory. A score of zero indicates that the student is markedly deficient in the competency area or has demonstrated unethical, unprofessional, or inappropriate behavior. Dismissal from the program will be considered.

1 - Low/Below Expectations. A score of one indicates that the student is performing notably below the expected level of competency. If a student receives a score of 1 for their overall performance a formal remedial plan will be developed. Receiving a 1 in any specific area will require interventions targeted at improving their skill in that competency domain. This should be specified in the comment section or an attached document.

2 - Satisfactory/Expected. A score of 2 indicates that the student is performing at the expected level of competency. Plusses and minuses can be given to indicate if the student is slightly below or above expected level.

3 - Strong/Above Expectations. A score of 3 indicates the student is performing above the expected level of competency given their training experiences.

4 - Outstanding. A score of 4 indicates a markedly superior demonstration of the competency. Such scores are only given when the student’s skills, enthusiasm, knowledge, attitudes, and initiative demonstrate a truly outstanding capacity.
Area 1: Attitudes, Values, Intellectual Abilities, and Personal Skills -
Supervisor Rating
Before beginning practicum the student should possess and demonstrate a set of basic personal and
intellectual skills, attitudes, and values, and a core of professional knowledge. These skills, attitudes, and
values are baseline competencies of the professional minister.

   for others; deals with conflict in a mature, adaptive manner
